Subject: A Solution!

I am protected from Identity Theft through a program that Pre-Paid Legal Services, Inc., Ada, Ok. I am a member. Identity Theft Shield has already worked for me during this last year.

When a member's identity is threatened or stolen, the I D Shield works very well in daily monitoring of credit, unwelcome address changes, etc. The member is notified immediately. Should the identity actually be stolen, the restoration process starts for the member. If necessary, the Life Events Legal Plan assists in all areas necessary.

These services are very affordable and effective. This may be the best suggestion you could make to the U.S. public.
